Certificate of Appreciation

Dear Ashish Sirohi,
You have been appreciated by **Praveen Kumar Thakur**.

I would like to appreciate the efforts put in by Ashish Sirohi to fix the browser compatibility and fill configuration issue. These were difficult issues to fix as it was intermittent in nature and application was behaving differently in Windows and Linux environment. I have involved all most all the senior Livelink Developers from TCS to look into the issue however none of them could fix. It was finally Ashish who came up with an idea to use Jscript instead of JQuery to fix the fill configuration issue.
Well done Ashish !!! keep it up!!!

Keep up the good work!

Warm Regards.

TCS Gems Team
